Shocked by the sudden death of our colleagues Dr Richard W Pei: We feel a huge loss and deeply sorrow.

Dr. Pei was an outstanding physician who cared for his patients with passion, solid knowledge, and professionalism. He had contributed to women's health as an outstanding obstetrician and gynecologist throughout his career. His departure is an immense loss for the Chinese obstetrics and gynecology community in North America.

Dr. Pei embraced life with many interests, hiking, biking, and public service. He is a warm-hearted human being. He had helped multiple friends, colleagues and had been a mentor for many younger physicians.

May Dr. Pei rest in peace, and we will forever cherish his memory.

By going through similar journey towards our career in USA as immigrants, we are so proud that Dr Pei overcame language and cultural barriers, went through rigorous residency training, at same time, be a beloved husband and father to raise up two wonderful children. His passion to patients, patriotism to others, and love to his family will remain!

May the departed find eternal peace.

May the living be in good health.

We extend our deepest condolences to Dr. Pei's family and friends through celebrating his new life together!

Sincerely,

All the colleagues at the North American Society of Chinese
Obstetricians and Gynecologists.
